

**Multilingualism
is your chance –
use it!**

Language development – multilingual, integrated into everyday life, multidimensional Educational partnership – trustworthy and appreciative

Language education begins in the family. „**Rucksack Schule**“ supports children and families with and without an international family history as well as primary schools in discovering and using the multilingualism of children and families as an important resource.

In the context of the child's development at school, „**Rucksack Schule**“ sees itself as a continuation of the programmes „Griffbereit“ and „Rucksack KiTa“.
